

## Customer Batch Processing

As per our discussion on call here, I created one module for Customer Batch ProcessingOdoo.

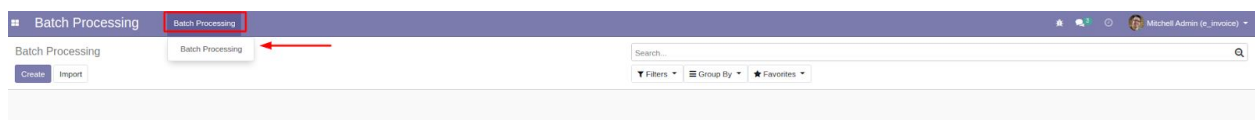

### Feature:

1. Create one master menu called Batch Processing.
2. Create one sub-menu called Batch Processing.
3. Added Feature of Create and Update.
4. Added Access right for the new Modules.
5. Added new fields as per requirement.
6. Added Form view and List view.
7. Added Submit Request Button.
8. Connection with Database. (Store Data or User Input)
- 9.

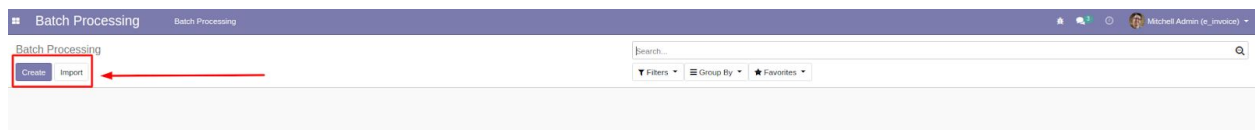

### 1. Create one master menu called Batch Processing.

### 2. Create one sub-menu called Batch Processing.

### 3. Added Feature of Create and Update.

#### 4. Added Access right for the new Modules.

Note: This is a Technical portion so do not attach the screenshot for this part but it will allow that Only an Authorised person can allow creating a new Batch.

#### 5. Added new fields as per requirement.

- Added Below fields in Form and ListView.
  1. Batch - Many2one
  2. Quantity
  3. Address
    - a. Street
    - b. Street 2
    - c. City
    - d. Zip
    - e. State
    - f. Country

The screenshot shows the 'Batch Processing / New' form. The 'Batch' field is a dropdown menu. The 'Quantity' field is a text input with the value '0.00'. The 'Address' section contains several fields: 'Street...', 'Street 2...', 'City', 'State', 'Zip', and 'Country'. A red arrow points to the 'Street...' field with the label 'New Fields Added'.

The screenshot shows the 'Batch Processing / New' form. The 'Batch' field is a dropdown menu with a list of options: 'Batch 1', 'Batch 2', 'Batch 3', 'Batch 4', 'Batch 5', and 'Create and Edit...'. A red arrow points to the dropdown menu with the label 'New Batch Creation options'.

## 6. Added Form view and List view.
